MATERIALI

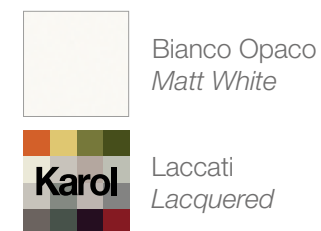

Materials

ACRILICO / ACRYLIC

L'acrilico è sinonimo di solidità e vanta molteplici qualità: un'estrema durabilità e inalterabilità che consente una pulizia facile e veloce. Acrilico è sicurezza e bellezza senza tempo.

Acrylic has many qualities: it is highly durable, it does not change over time and makes cleaning quick and easy. Acrylic safety and beauty stand the test of time.

Finiture / Finishes:

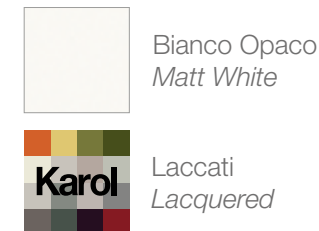

SOLID SURFACE

Composto da una miscela di resine acriliche e sostanze minerali, il Solid Surface è un materiale che si fa riconoscere per l'estrema sartorialità: raffinato, setoso al tatto, regala prodotti dall'estetica contemporanea caratterizzati dal finish opaco.

Il Solid Surface interpreta l'esigenza di avere dei prodotti con un'identità e uno stile unici.

Made of a mixture of acrylic resin and mineral substances, Solid Surface is a bespoke material that exudes sophistication, is silky to the touch. Solid Surface is perfect for contemporary products and has a very appealing matt finish. Solid Surface gives to our products its own unique identity and style.

Finiture / Finishes:

MINERALMARMO

Versatile, malleabile, inalterabile nel tempo. Queste caratteristiche rendono il Mineralmarmo, materiale composto da minerali e resine con finitura superficiale in Gelcoat, perfetto per l'ambiente bagno, resistente e allo stesso tempo sofisticato. Interpretato nei nostri prodotti, con la sua estetica accattivante, in versione sia lucida che opaca, riesce a soddisfare anche la clientela più esigente.

Versatile, malleable, unchanging over time: these qualities make Mineralmarmo, a mineral and resin mix with a surface finish in Gelcoat, the perfect material for the bathroom, as it is hard-wearing but sophisticated, available both in glossy or matt version. Its eye-catching appearance will satisfy even the most demanding customer.
