BATH & KITCHEN

## HANDMADE SINCE 1990

We are very proud of the process of producing our worktops for kitchen and bath. Every worktop is unique because of the materials and work process that lies behind. From receiving the drawings from our retailers, to getting the right measurement, mixing the materials, casting the base, to the worktop finally reaches finish.

And nothing has changed since we started in 1990 - it is still all about the handmade worktop...
