Consultar valor de un producto específico antes del suministro.		

We recommend using neutral Ph grouts and do not let the grout excess dry, proceeding to clean with plenty of water and soap before it dries for the Dialogo Cobalt Hammered. If there are still traces, only a Neutral PH cleaner can be used. Acid or alkaline based cleaning products can damage the surface.

Se aconseja emplear juntas con Ph neutro, no dejarlas secar y proceder a limpiar con abundante agua y jabón una vez terminada la colocación en el modelo Dialogo Cobalt Hammered. Si aún permanecen restos, se puede utilizar un limpiador de Ph Neutro. No utilizar productos de limpieza con base ácida o alcalina ya que pueden dañar la superficie

Craquelle may present a natural craqueleure (glaze surface cracking) during and after its installation. We recommend using neutral Ph grouts and do not let the grout excess dry, proceeding to clean with plenty of water and soap before it dries. If there are still traces, only a Neutral PH cleaner can be used. Acid or alkaline based cleaning products can damage the surface.

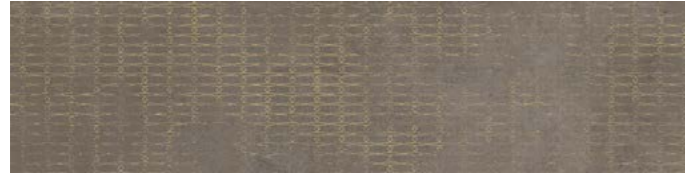

La colección Craquelle, puede producir un continuo efecto natural de craquelado de la superficie durante y después de su colocación. Se aconseja emplear juntas con Ph neutro, no dejarlas secar y proceder a limpiar con abundante agua y jabón una vez terminada la colocación. Si aún permanecen restos, se puede utilizar un limpiador de Ph Neutro. No utilizar productos de limpieza con base ácida o alcalina ya que pueden dañar la superficie.
