ULTRAMARMI

THE RIGHT CHOICE FOR PUBLIC AND PRIVATE SPACES. AND FOR NATURE TOO

Etica e sostenibilità sono da sempre presenti nella nostra storia, nei nostri prodotti e nello sviluppo dei concept. Oltre a ridurre a zero le emissioni collegate alla produzione, investiamo nell'evoluzione dei prodotti e nel miglioramento tecnologico dei processi, ottimizzando e curando ogni piccolo dettaglio. Nasce da questo impegno la nuova serie di formati **270x120** e **120x120**, in grado di adattarsi alle dimensioni standard di progetto e ridurre lo spreco, dalla produzione al cantiere, passando per il trasporto.

Le innovazioni alla base del nostro impegno ambientale non fanno solo bene al pianeta.

STATUARIO ALTISSIMO

An ethical, sustainable approach has always been part of our history, our products and how our concepts are developed. As well as reducing production emissions to zero, we invest in the evolution of products and the technological improvement of processes, optimising and taking care of every detail. This commitment has led to the addition of the new series of 270x120 and 120x120 sizes, able to adapt to standard project dimensions and reduce waste, from the factory to the building yard, as well as transport. The innovations underlying our commitment to the environment are not only good for the planet.

Ethik und Nachhaltigkeit gehören seit jeher zu unserer Geschichte, unseren Produkten und zur Entwicklung der Konzepte. Wir reduzieren nicht nur die mit der Produktion verbundenen Emissionen auf Null, sondern investieren auch in die Weiterentwicklung der Produkte und in die technologische Verbesserung der Prozesse, indem wir jedes kleinste Detail optimieren und berücksichtigen. Dieser Einsatz hat zur Schaffung der neuen Serie an Formaten 270x120 und 120x120 geführt, die in der Lage sind, sich an die Standardabmessungen des Projekts anzupassen, und bei der Produktion und dem Transport bis hin zu den Bauarbeiten weniger Verschwendung bedingen. Die Innovationen auf der Grundlage unseres Engagements für die Umwelt tun nicht nur dem Planeten gut.

Éthique et durabilité sont depuis toujours présentes dans notre histoire, dans nos produits et dans le développement de nos concepts. En plus de réduire à zéro les émissions inhérentes à la production, nous investissons dans l'évolution des produits et dans l'amélioration technologique des processus, en optimisant et en soignant chacun des moindres détails. C'est de cet engagement que naît la nouvelle série de formats 270x120 et 120x120, en mesure de s'adapter aux dimensions standards de projet et de réduire le gaspillage, de la production au chantier, en passant par le transport. Les innovations à la base de notre engagement environnemental ne font pas du bien qu'à la planète.
